Keeping it Private

Public Data and Privacy Protection

Navigating Data and Privacy

Washington state is very open with the way it shares data within the public trust and has one of the most advanced public records laws in the nation. At the same time, citizens have a right to privacy under the state's Constitution.

Learn more about the balance between public data and privacy by attending this seminar on Monday, June 19 from 5:30 to 7:00 p.m. at the Lacey Timberland Library. The seminar is presented by the **Washington State Office of Privacy & Data Protection**. They will delve into issues of data sharing, hackers and provide tips on the law, protecting private data and strategies around balancing these issues.

All Timberland Programs are free and open to the public. The **Lacey Timberland Library** is located at 500 College St. SE. For more information, contact the library at (360) 491-3860 or visit www.TRL.org.

Timberland Regional Library provides for the information, reading and lifelong learning needs of the Grays Harbor, Lewis, Mason, Pacific and Thurston county public at 27 community public libraries and six library service partner locations. The library system is funded mainly by local property taxes. Anyone needing special accommodations to participate in a library's programs may contact the library one week in advance.
