What does nuclear power mean to you?
Winlock library hosts nuclear power information night

Rick and Diana Bradshaw will discuss nuclear energy, including current events, on Tuesday, May 10 from 6:30 to 7:30 p.m. at the [Winlock Timberland Library](#). They'll help explain what happened to the reactors in Japan and how those incidents can affect those locally and abroad. They will show a Power Point Presentation to illustrate points in the discussion.

Rick operated nuclear power plants for the Navy. He was the Master Chief on a Nuclear Submarine. He's now retired. Diana is a mechanical engineer who has designed a number of power plants. The Bradshaws have lived in Winlock for six years.

The Friends of the Winlock Timberland Library will provide refreshments for the program. The library is located at 322 1st Street, Winlock. For more information, please contact the library at (360) 785-3461 or go to www.TRL.org.

Timberland Regional Library provides for the information, reading and lifelong learning needs of the Grays Harbor, Lewis, Mason, Pacific, and Thurston county public at 27 community public libraries and 7 library service partner locations. The library system is funded mainly by local property taxes. Anyone needing special accommodations to participate in a library's program may contact the library one week in advance.
